

Dragon Maths workbooks deliver instruction and practise in the key numeracy skills for primary & intermediate students. Titles are based on the New Zealand Mathematics Curriculum and the Number Framework

The Dragon Maths workbooks are specifically aimed at students from Years 3 to 8. The complete third edition series has more pages in each title, as well as providing two new combined, problem-solving chapters to the four upper level titles.

Improve the numeracy skills at your school by providing an individual Dragon Maths workbook for each student. Put them on the stationery list and make a long-term difference. Parents - we sell direct to you via our website.

These best-selling workbooks include the following features :

- ◆ Four numeracy chapters
- ◆ Number Framework covered
- ◆ Worked examples
- ◆ Maths instruction boxes
- ◆ Loads of illustrations
- ◆ Problem solving tasks
- ◆ All curriculum strands covered
- ◆ 50 pages of numeracy
- ◆ Removable answers included
