2 Contents

Introduction

NUMBER and ALGEBRA

Chapter 1 - Counting

Up to One Hundred	4
Up to One Thousand	5
Smaller and Larger	6
Give or Take Ten	7
Skip Counting	8
Counting Tens	9
Problems and Puzzles	10
Other Counting Systems	11
Ordering Numbers	12
The Abacus	13
Making Large Numbers	14
Many Thousands	15
Number Puzzles	16
Counting - Test	17

Chapter 2 - Adding and Subtracting

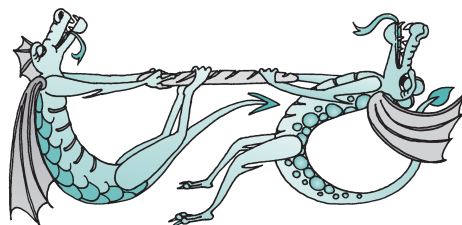

Making Ten	18
Basic Adding	19
Basic Subtracting	20
Clever Strategies	21
Adding Ones and Tens	22
Subtracting Ones and Tens	23
Adding Through Tidy Numbers	24
Subtracting Through Tidy Numbers	25
Problems and Puzzles	26
Test Your Skills	27
Adding or Subtracting Too Much	28
Using Blocks or Abacus	29
Writing Additions in Columns	30
Writing Subtraction in Columns	31
Word Problems	32
Card Games	33
Adding Tens and Hundreds	34
Subtracting Tens and Hundreds	35
Money	36
Read and Solve Problems 1	37
Read and Solve Problems 2	38
Guess, Check and Improve	39
Estimating	40
Adding and Subtracting - Test	41

Chapter 3 - Multiplying and Dividing

Lots of the Same	42
Multiplying	43
Tens and Fives	44
Learning Tables	45
Patterns	46
Games and Problems	47
Dividing 1	48
Dividing 2	49
Predict and Check	50
Strategies for Multiplying	51
Strategies for Dividing	52
Practise \times and \div	53
Problems in Words and Symbols	54
Lots of Large Numbers	55
Dividing Large Numbers	56
Using Numberlines	57
Doubles and Halves	58
Tens and Fives Again	59
Problems and Puzzles	60
Multiplying and Dividing - Test	61

Chapter 4 - Fractions

Name the Fraction	62
A Fraction of a Unit	63
A Fraction of an Amount 1	64
A Fraction of an Amount 2	65
Sharing the Left Overs	66
Fractions - Test	67

Chapter 5 - Algebra

The Four Operations	68
Number Sentences	69
Number Strategies 1	70
Number Strategies 2	71
Continue a Pattern	72
Using Logic	73
Making Predictions 1	74
Making Predictions 2	75
Making Predictions 3	76
Algebra - Test	77

Introduction

Chapter 6 - Number and Algebra Revision

Number Skills Practice 1	78
Number Skills Practice 2	79
Number Skills Practice 3	80
Number Skills Practice 4	81
Algebra Practice	82

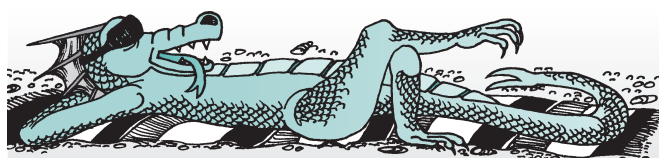

GEOMETRY and MEASUREMENT

Chapter 7 - Measurement

Estimating Length	83
Estimating Area	84
Estimating Weight	85
Estimating Capacity	86
Units of Measurement 1	87
Units of Measurement 2	88
Reading Scales	89
Measuring Time	90
The Calendar	91
Clock Reading	92
Measurement Problems	93
Measurement - Test	94

Chapter 8 - Geometry

Shapes with Straight Sides	95
Rectangle, Square and Rhombus	96
Drawing Flat Shapes	97
Naming Solids	98
Parts of Solids	99
Making Boxes	100
Views	101
Directions	102
Compass Directions	103
Flip It	104
Turn It	105
Flips, Turns and Slides	106
Tiling Patterns	107
Symmetry	108
Geometry - Test	109-110

STATISTICS

Chapter 9 - Statistics

Collecting Information	111
Blocks and Pictures	112
Picture Graphs	113
A Food Survey	114
Bar Graphs	115
Your Own Survey	116
Arrow Diagrams	117
Time Graphs	118
Chance	119
Playing with Cards	120
Statistics - Test	121

Removable Answers (pages perforated)A1-A9

Note to Teachers and Parents

The Dragon Maths series includes appropriate work for the strands Number and Algebra, Geometry and Measurement, and Statistics from the *New Zealand Mathematics and Statistics Curriculum*.

Dragon Maths 2 is written for the majority of pupils in Year 4. It covers curriculum Level 2 and the Early Additive Stage (Stage 5) of *The Number Framework*.

The chapters in this book follow the order of the curriculum document but it is not suggested that the work be done in this order. Teachers may wish to break up the six number and algebra chapters. A possible working order may be : Counting, Adding and Subtracting, Geometry, Multiplying and Dividing, Fractions, Statistics, Algebra, Measurement.

Use the Number and Algebra Revision chapter to keep practising number skills during the year.

On the top of each page you will find the feedback icons :

Thumbs up
"No trouble"

OK
"Mostly fine"

Thumbs down
"I need help"

These are provided for pupils to let their teacher know how well they've managed the work on that page. Encourage your pupils to colour the icon that most closely reflects how they are coping and you will have a valuable window on their attitude towards this maths topic.

I hope you and your students have fun working through Dragon Maths 2 this year. Remember this workbook is part of a full primary maths series and able students, together with remedial students, may benefit from working either one book higher or lower in the series.
