Contents

NUMBER and ALGEBRA

Chapter 1 - Adding and Subtracting

Mental + and – 4
Making Adjustments 5
Adding or Subtracting Too Much 6
Doubles and Triples 7
More Strategies 8
Read and Solve 9
Counting 10
Place Values 1 11
Place Values 2 12
Rounding 13
Large Numbers + and – 14
Pen and Paper Adding 15
Pen and Paper Subtracting 16
Practise Your Skills 17
Solving Problems 1 18
Solving Problems 2 19
Puzzles 20
Adding and Subtracting - Test 21

Chapter 2 - Multiplying and Dividing

Tens, Hundreds and Thousands 22
Tables Practice 23
Basic Division Skills 24
Mental × and ÷ 25
Doubles and Halves 26
More Multiplication 27
More Division 28
Practise Your Skills 29
Calculator Work 30
Multiplying Large Numbers 31
Dividing Large Numbers 32
Solving Problems 1 33
Solving Problems 2 34
Puzzles 35
Multiplying and Dividing - Test 36

Chapter 3 - Fractions

Understanding Fractions 37
Comparing Fractions 38
Equivalent Fractions 39
Fractions on the Numberline 40
A Fraction of an Amount 41
Fraction Problems 42
Percentages 43
Fractions - Test 44

Chapter 4 - Decimals

Decimal Notation 45
Decimal Place Value 46
Exploring Decimals 47
Ordering and Rounding 48
Adding and Subtracting Decimals 49
Mental + and – 50
More Mental + and – 51
Pen and Paper Adding 52
Pen and Paper Subtracting 53
Decimal Tables 54
Decimals x and ÷ 55
Pen and Paper x and ÷ 56
Decimal Problems 1 57
Decimal Problems 2 58
Calculator Problems 59
Decimals - Test 60

Chapter 5 - Algebra

Negative Numbers 61
Continue a Pattern 62
Use a Pattern 63
Follow Instructions 64
Make Up a Rule 65
Investigating Multiplication 66
Find the Number 1 67
Find the Number 2 68
Plotting Relationships 69
Line Graphs 70
Make a Table 71
Working Backwards 72
Algebra - Test 73

Chapter 6 - Number and Algebra

Task 1 - The Walkathon 74
Task 2 - Positive and Negative Numbers 75
Task 3 - Circle Patterns 76
Task 4 - How Many Triangles? 77

GEOMETRY and MEASUREMENT

Chapter 7 - Measurement

Units of Measurement 78
Measuring Liquid Volumes 79
Measuring Length 1 80
Measuring Length 2 81
Measuring Mass 82

Dragon Maths 4 - 3rd Edition © Sigma Publications Ltd 2017 ISBN 978-1-877567-73-5 Schools must purchase a licence from Copyright Licensing Ltd before limited legal copying is permitted.

Contents 3

Chapter 7 - continued

Using Measurement 1 83
Using Measurement 2 84
Measuring Time 85
Timetables 86
Rates 87
Perimeter 88
Area 89
Area and Perimeter 90
Volume of Solids 1 91
Volume of Solids 2 92
Measurement - Test 93

Chapter 8 - Geometry

Compass Directions 94
Angles 95
Naming Shapes 96
Investigating Quadrilaterals 97
Shapes on a Grid 98
Flat Faced Solids 99
Nets of Solids 100
Views and Plans 101
Shapes (2D and 3D) 102
Translation and Reflection 103
Rotation 104
Symmetry 105
Enlargement 106
Tessellations 107
Geometry - Test 108

Chapter 9 - Measurement and Geometry

Task 1 - Comparing Prices 109
Task 2 - Investigating a Design 110-111
Task 3 - Enlarging a 3D Shape 112

STATISTICS

Chapter 10 - Statistics

Starting an Investigation 113
Questionnaires 114
Class Surveys 1 115
Class Surveys 2 116
Strip Graphs 117
Studying Graphs 118
Line Graphs 119
Average and Range 120
Stem and Leaf Plots 121

Chapter 10 - continued

Chance 122
Outcomes 123
Tree Diagrams 124
Tossing Two Coins 125
Statistics - Test 126
A Statistical Investigation 127-129
An Experiment 130

Removable Answers (perforated) .....back pages A1-A10

Note to Teachers and Parents

The Dragon Maths series includes appropriate work for the strands Number and Algebra, Geometry and Measurement, and Statistics from the *New Zealand Mathematics and Statistics Curriculum*.

There are four chapters covering number skills. This reflects the time pupils should spend learning numeracy strategies as suggested in *The Number Framework*.

Dragon Maths 4 is written for the majority of pupils in Year 6. It covers curriculum level 3 and the Additive Stage (stage 6) of The Number Framework.

The chapters in this book follow the order of the curriculum document but it is not suggested that the work be done in this order. Teachers may wish to break up the number chapters. A possible working order may be : Adding and Subtracting, Multiplying and Dividing, Geometry, Fractions, Statistics, Decimals, Algebra, Measurement. Once a chapter has been completed the skills learnt need to be practised regularly for the remainder of the year.

On the top of each page you will find the feedback icons :

Thumbs up "No trouble"

OK "Mostly fine"

Thumbs down "I need help"

These are provided for pupils to let their teacher know how well they've managed the work on that page. Encourage your pupils to colour the icon that most closely reflects how they are coping and you will have a valuable window on their attitude towards this maths topic.

I hope you and your students have fun working through Dragon Maths 4 this year. Remember this workbook is part of a full primary maths series and able students, together with remedial students, may benefit from working either one book higher or lower in the series.

Wiesje Geldof
