Introduction

NUMBER and ALGEBRA

Chapter 1 - Adding and Subtracting

Reading and Writing Numbers	4
Stacking an Abacus	5
Counting	6
Other Counting Systems	7
Ordering Numbers	8
Puzzles	9
Basic Adding	10
Basic Subtracting	11
Mental Strategies 1	12
Mental Strategies 2	13
Jumping the Numberline	14
Problems and Puzzles	15
Practice + and -	16
Rounding and Estimating	17
Adding Large Numbers	18
Subtracting Large Numbers	19
Read and Solve 1	20
Read and Solve 2	21
Read and Solve 3	22
Adding and Subtracting - Test	23

Chapter 2 - Multiplying and Dividing

Tens and Hundreds	24
Tables	25
Table Strategies	26
Practice x	27
Understanding Division 1	28
Understanding Division 2	29
Problems and Puzzles 1	30
Problems and Puzzles 2	31
Practice +	32
Remainders	33
Multiplying Large Numbers	34
Dividing Large Numbers	35
Solving Problems 1	36
Solving Problems 2	37
Multiplying and Dividing - Test	38

Chapter 3 - Fractions

Naming Fractions	39
Understanding Fractions	40
Equal Portions	41
Renaming Fractions	42
Working with Fractions 1	43
Working with Fractions 2	44

Chapter 3 - continued

Mixtures 1	45
Mixtures 2	46
In Between Whole Numbers	47
Numberlines	48
Problems and Puzzles	49
Fractions - Test	50

Chapter 4 - Decimals

Dollar Notation	51
Using Money 1	52
Using Money 2	53
Decimal Notation	54
Sums with Fractions and Decimals 1	55
Sums with Fractions and Decimals 2	56
Decimal Numberlines	57
Decimals + and -	58
Decimals x and +	59
Rounding	60
Estimating	61
Decimals - Test	62

Chapter 5 - Algebra

Continue a Pattern	63
Follow Instructions	64
Make Up a Rule	65
Puzzles with Patterns	66
Find the Number	67
Make a Table	68
Write It a Shorter Way	69
Using Number Patterns	70
Solving Problems 1	71
Solving Problems 2	72
Plotting Points	73
Plotting Graphs	74
Algebra - Test	75

Chapter 6 - Number and Algebra

Task 1 - Touring the South Island	76
Task 2 - Sausage Sizzle	77
Task 3 - School Concert	78
Task 4 - The Garden Path	79

Introduction

GEOMETRY and MEASUREMENT

Chapter 7 - Measurement

Reading Scales	80
Units of Measurement	81
Measuring Length 1	82
Measuring Length 2	83
Measuring Weight	84
Measuring Liquid Volumes	85
Decimals in Measurement	86
Using Measurements	87
Clock Reading	88
Measuring Time	89
Problems and Puzzles 1	90
Problems and Puzzles 2	91
Perimeter	92
Area	93
Area and Perimeter	94
Measurement - Test	95 - 96

Chapter 8 - Geometry

Lines	97
Triangles and Quadrilaterals	98
Drawing Shapes	99
Tangram	100
Solid Shapes	101
Drawing Solids	102
Making Boxes	103
Views	104
Directions	105
Maps	106
Paths	107
Translation	108
Paperwork	109
Symmetry	110
Reflection	111
Rotation	112
Enlargement	113
Geometry - Test	114 - 115

Chapter 9 - Measurement and Geometry

Task 1 - Going to Olivia's House	116
Task 2 - Up-Size Me	117
Task 3 - Four Triangles	118
Task 4 - Buildings	119

STATISTICS

Chapter 10 - Statistics

Starting a Survey	120
Doing a Survey	121
Bar Graphs	122
A Flags Survey	123
Number Plots	124
Chance	125
Games of Chance	126
Statistics - Test	127
Statistical Investigation 1	128 - 129
Statistical Investigation 2	130 - 131

Removable Answers (perforated)back pages A1-A9

Note to Teachers and Parents

The Dragon Maths series includes appropriate work for the strands Number and Algebra, Geometry and Measurement, and Statistics from the *New Zealand Mathematics and Statistics Curriculum*.

There are four chapters covering number skills. This reflects the time pupils should spend learning numeracy strategies as suggested in *The Number Framework*.

Dragon Maths 3 is written for the majority of pupils in Year 5. It covers curriculum level 2-3 and the Additive Stage (stages 5-6) of The Number Framework.

The chapters in this book follow the order of the curriculum document but it is not suggested that the work be done in this order. Teachers may wish to break up the number chapters. A possible working order may be : Adding and Subtracting, Multiplying and Dividing, Geometry, Fractions, Statistics, Decimals, Algebra, Measurement. Once a chapter has been completed the skills learnt need to be practised regularly for the remainder of the year.

On the top of each page you will find the feedback icons :

These are provided for pupils to let their teacher know how well they've managed the work on that page. Encourage your pupils to colour the icon that most closely reflects how they are coping and you will have a valuable window on their attitude towards this maths topic.

I hope you and your students have fun working through Dragon Maths 3 this year. Remember this workbook is part of a full primary maths series and able students, together with remedial students, may benefit from working either one book higher or lower in the series.
